Topic 1, Case Study 1	6
Topic 2, Case Study 2	6
Topic 3, Case Study 3	2
Topic 4, Case Study 4	2
Topic 5, Mixed Questions	141
Total	157

QUESTION NO: 1 - (SIMULATION)

SIMULATION

Please wait while the virtual machine loads. Once loaded, you may proceed to the lab section. This may take a few minutes, and the wait time will not be deducted from your overall test time.

When the Next button is available, click it to access the lab section. In this section, you will perform a set of tasks in a live environment. While most functionality will be available to you as it would be in a live environment, some functionality (e.g., copy and paste, ability to navigate to external websites) will not be possible by design.

Scoring is based on the outcome of performing the tasks stated in the lab. In other words, it doesn't matter how you accomplish the task, if you successfully perform it, you will earn credit for that task.

Labs are not timed separately, and this exam may have more than one lab that you must complete. You can use as much time as you would like to complete each lab. But, you should manage your time appropriately to ensure that you are able to complete the lab(s) and all other sections of the exam in the time provided.

Please note that once you submit your work by clicking the Next button within a lab, you will NOT be able to return to the lab.

You may now click next to proceed to the lab.

Instructions

Username and Password

Use the following login credentials as needed:

To enter your username, place your cursor in the Sign in box and click on the username below.

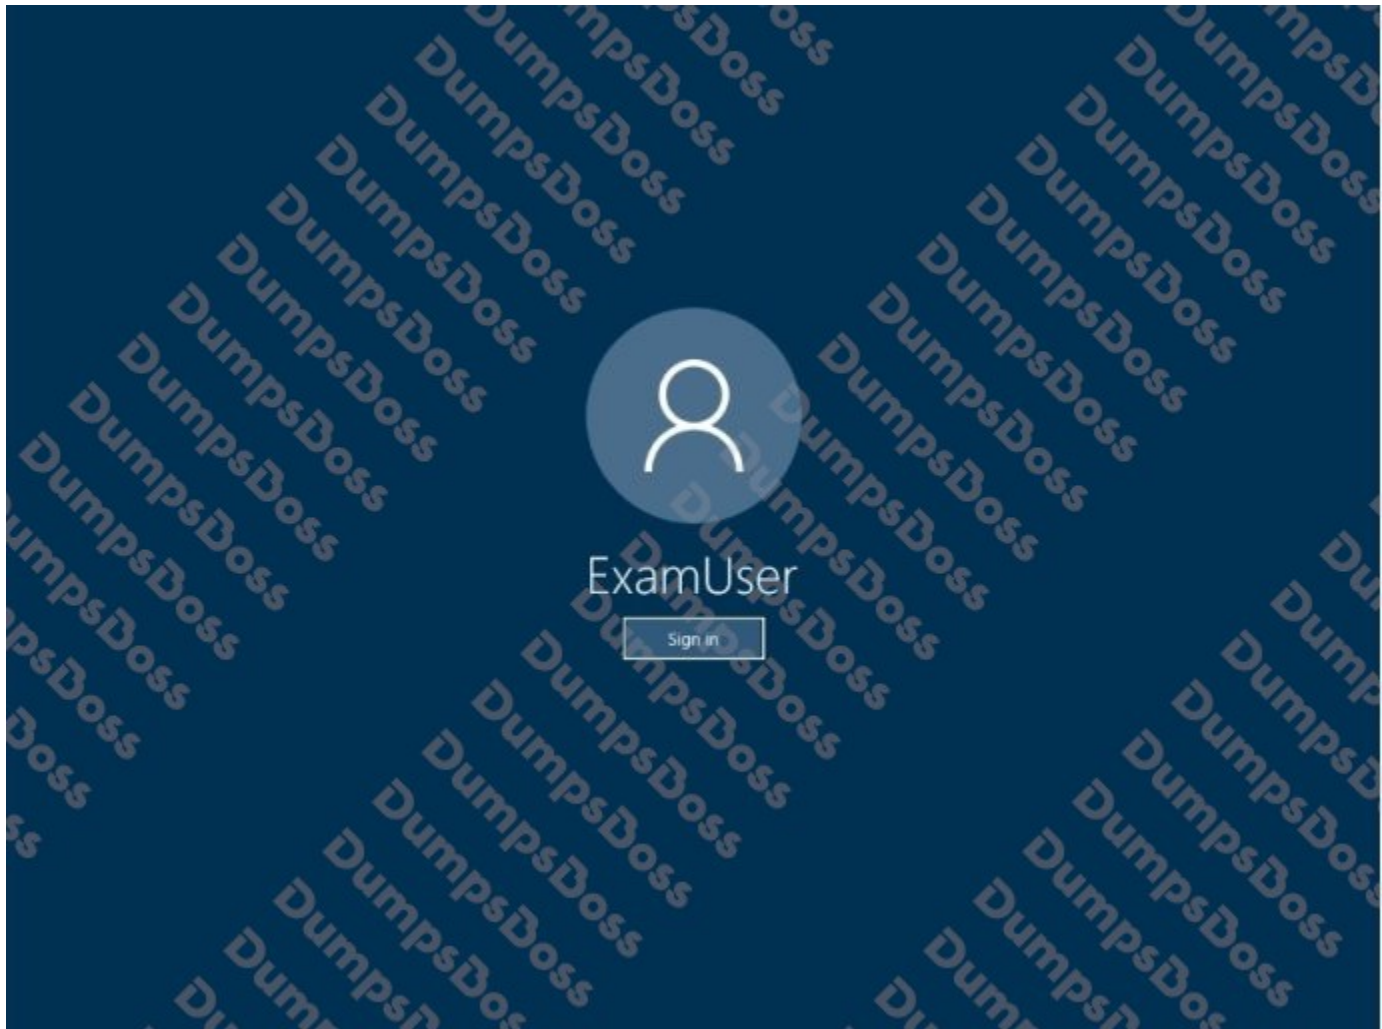

To enter your password, place your cursor in the Enter password box and click on the password below.

Microsoft 365 Username: admin@LODSe608500.onmicrosoft.com Microsoft 365 Password: 0=M5w*%rYxfj

If the Microsoft 365 portal does not load successfully in the browser, press CTRL-K to reload the portal in a new browser tab.

Lab Instance: 11134591

You need to ensure that all Microsoft OneDrive sharable links expire three days after the links are created.

To complete this task, sign in to Microsoft 365 admin portal.

ANSWER: See explanation below

Explanation:

1. Go to the Sharing page of the new SharePoint admin center, and sign in with an account that has admin permissions for your organization.
2. Navigate to Advanced settings for "Anyone" links"

A screenshot of the 'Advanced settings for "Anyone" links' configuration in SharePoint. At the top, there is a radio button for 'Anyone with the link'. Below it, the section is titled 'Advanced settings for "Anyone" links' with an upward-pointing chevron. A checked checkbox is followed by the text 'These links must expire within this many days' and a text input field containing the number '90'. Underneath, the text 'These links can give these permissions:' is followed by two dropdown menus: 'Files:' with 'View and edit' selected, and 'Folders:' with 'View, edit, and upload' selected.

- Link expiration - You can require all "Anyone" links to expire, and specify the maximum number of days allowed
- Link permissions - You can restrict "Anyone" links so that they can only provide view permission for files or folders.
- If you are using file requests, the link permissions must be set for View and edit for files and View, edit, and upload for folders.

3. Set the These links must expire within this many days option to 3.

QUESTION NO: 2

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

Your company has a Microsoft 365 subscription. The company has 1,000 users.

You recently asked all the users to store content in Microsoft OneDrive for Business.

You need to identify how many users are actively using OneDrive for Business.

Solution: From the Microsoft 365 admin center, you view the usage reports.

Does this meet the goal?

A. Yes

B. No

ANSWER: A

Explanation:

References: <https://docs.microsoft.com/en-us/graph/api/resources/onedrive-usage-reports>

QUESTION NO: 3 - (HOTSPOT)

HOTSPOT

You work for a company named Contoso, Ltd.

Contoso has a Microsoft 365 subscription.

You change the default storage limit to 1,500 GB for Microsoft OneDrive for Business.

You need to ensure that a user named User1 has the new storage limit.

How should you complete the command? To answer, select the appropriate options in the answer area.

NOTE: Each correct selection is worth one point.

You need to prevent users of a team named Sales and Marketing from modifying or deleting messages in the team.

To complete this task, sign in to Microsoft 365 admin portal.

ANSWER: See explanation below.

Explanation:

1. Navigate to the Microsoft Teams admin center and choose Messaging policies in the left navigation pane.
2. Select New policy, give the new policy a name, and then turn off the following setting:
 - Owners can delete sent messages
 - Users can delete sent messages
 - Users can edit sent messages
3. Choose Save when you are done.
4. In Messaging policies, select the policy by clicking to the left of the policy name.
5. Select Manage users.
6. In the Manage users pane, search for the user by display name or by user name, select the name, and then select Add. Repeat this step for each user that you want to add.

7. When you are finished adding users, select Save.

QUESTION NO: 6 - (DRAG DROP)

DRAG DROP

You have a Microsoft 365 subscription.

You configure an App Catalog. You add several apps to the App Catalog.

Users report that when they attempt to add apps to sites, the new apps fail to appear.

You need to ensure that the users can add the apps to the sites.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of action to the answer area and arrange them in the correct order.

Select and Place:

Actions

Answer Area

Run the New-Filecatalog cmdlet.

Select the app and then select **Open**.

Select the **Featured** check box in the App settings.

Open the App catalog site, select the **Apps for SharePoint** list, and then select **new item**.

Run the Install-SPApp cmdlet.

Select the **Enabled** check box in the app settings.

ANSWER:

Actions

Answer Area

Run the New-Filecatalog cmdlet.

Select the app and then select **Open**.

Select the **Featured** check box in the App settings.

Open the App catalog site, select the **Apps for SharePoint** list, and then select **new item**.

Run the Install-SPApp cmdlet.

Select the **Enabled** check box in the app settings.

Open the App catalog site, select the **Apps for SharePoint** list, and then select **new item**.

Select the app and then select **Open**.

Select the **Enabled** check box in the app settings.

QUESTION NO: 7

You are the environment administrator for Microsoft Flow.

You need to ensure that users can only share data between Microsoft SharePoint and Microsoft Dynamics 365.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Create a data loss prevention (DLP) policy.
- B. Create a Data Subject Rights (DSR) case.
- C. Create an Information Rights management (IRM) policy.
- D. Create a data governance label.
- E. Add connector to a data group.

ANSWER: A E

Explanation:

Reference:

<https://docs.microsoft.com/en-us/flow/introduction-to-data-groups>

QUESTION NO: 8 - (DRAG DROP)

DRAG DROP

Your company has a Microsoft Office 365 subscription. The company uses Microsoft Stream.

You need to embed a video created in Stream into a Microsoft SharePoint communication site.

Which three actions should you perform in sequence? To answer, move the appropriate actions from the list of actions to the answer area and arrange them in the correct order.

Select and Place:

Actions	Answer Area
Add a Microsoft Stream web part to a page.	
Set Source to Video.	
Add a Link web part.	
Paste the URL in the address box.	
Set Source to Channel.	

ANSWER:

Actions	Answer Area
Add a Microsoft Stream web part to a page.	Add a Microsoft Stream web part to a page.
Set Source to Video.	Set Source to Video.
Add a Link web part.	
Paste the URL in the address box.	Paste the URL in the address box.
Set Source to Channel.

QUESTION NO: 9

Note: This question is part of a series of questions that present the same scenario. Each question in the series contains a unique solution that might meet the stated goals. Some question sets might have more than one correct solution, while others might not have a correct solution.

After you answer a question in this section, you will NOT be able to return to it. As a result, these questions will not appear in the review screen.

You have a Microsoft 365 subscription that uses Yammer.

You create a new Yammer network.

You need to ensure that an Office 365 group is associated to the new network.

Solution: From the Yammer admin center, you modify the usage policy.

Does this meet the goal?

- A. Yes
- B. No

ANSWER: B

Explanation:

Reference:

<https://docs.microsoft.com/en-us/yammer/manage-yammer-groups/yammer-and-office-365-groups>

QUESTION NO: 10

You have a Microsoft SharePoint Online subscription. You need to ensure that Microsoft PowerPoint files appear at the top of search results.

Which two actions should you perform? Each correct answer presents part of the solution.

NOTE: Each correct selection is worth one point.

- A. Set a query transform of {SearchBoxQuery}Filetype=pptx contentclass:STS_Web
- B. Set a query transform of {SearchTerms}Filetype=pptx
- C. Create a new result source
- D. Create a new query rule
- E. Create a new Search dictionary

ANSWER: B D
