## QUESTION NO: 4 - (DRAG DROP)

Drag and drop the elements from the left into the correct order for incident handling on the right.

preparation	create communication guidelines for effective incident handling
containment, eradication, and recovery	gather indicators of compromise and restore the system
post-incident analysis	document information to mitigate similar occurrences
detection and analysis	collect data from systems for further investigation

**ANSWER:**

The image shows a vertical stack of four light blue rectangular boxes, each containing a phase of incident response. From top to bottom, the boxes contain the following text: "containment, eradication, and recovery", "preparation", "detection and analysis", and "post-incident analysis".
