QUESTION NO: 1

Your administrator creates maintenance conditions on the Maintain Project Enterprise Labor Resources page. An HCM person is included in a condition with a process order value of 1 and, additionally, there are three other conditions, all with a process order value of 10. Identify two correct statements about the Maintain Project Enterprise Labor Resources process as it relates to process order values. (Choose two.)

- A.** The process creates a resource by using the conditions with a process order value of 10 but does not create more than one resource for the same person even if subsequent conditions apply to the person.
- B.** For the three conditions that have the same process order value of 10, the records are processed in ascending alphabetic order based on the condition name.
- C.** For the three conditions that have the same process order value of 10, the records are processed in ascending numeric order based on the condition name.
- D.** The process creates a resource by using the condition with a process order value of 1 but does not create more than one resource for the same person even if subsequent conditions apply to the person.

ANSWER: B D

QUESTION NO: 2

Identify two correct role templates available on the Oracle Entitlement Server to generate roles for Project Organization Security. (Choose two.)

- A.** Project Manager Template for Project Organization Security
- B.** Project Administrator Template for Project Organization Security
- C.** Project Creator Template for Project Organization Security
- D.** Project Accountant Template for Project Organization Security
- E.** Project Billing Specialist Template for Project Organization Security

ANSWER: B C

Explanation:

QUESTION NO: 3

Your customer wants to automatically allocate unassigned asset lines and common costs across multiple assets

based on the construction-in-process cost of each asset. Identify the asset allocation method that you must use as the default method while configuring project types to meet this requirement. (Choose the best answer.)

- A. Standard Unit Cost
- B. Actual Unit
- C. Current Cost
- D. Estimated Cost
- E. Spread Evenly

ANSWER: C

Explanation:

Ref:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapfm/project-foundation-configuration>

Topic – Asset Cost Allocation Methods: Explained

The asset cost allocation method determines how indirect or common costs incurred on a project are allocated to multiple assets.

You can specify an asset cost allocation method to enable Oracle Fusion Project Costing to automatically allocate unassigned asset lines and common costs across multiple assets. Unassigned asset lines typically occur when more than one asset is assigned to an asset grouping level.

Projects and project templates inherit a default asset cost allocation method from the associated project type.

You can override the default at the project level. If you use capital events to allocate costs, then you can also override the asset cost allocation method at the event level.

The following table describes the available asset cost allocation methods. Method

Basis of Cost Allocation Actual Units

Number of units defined for each asset Current Cost

Construction-in-process (CIP) cost of each asset Estimated Cost

Estimated cost of each asset Standard Unit Cost

Combination of the standard unit cost and the number of units defined for each asset Spread Evenly

Equal allocation of cost to each asset

QUESTION NO: 4

Your customer has a requirement to import and process third-party transactions that are “costed” and “accounted”.

Which configuration option needs to be set satisfy the requirement? (Choose the best answer.)

- A. Import Options
- B. Document Options
- C. Transaction Source Options
- D. Document Entry Options

ANSWER: C

Explanation:

QUESTION NO: 5

You have four resources in your organization: P, Q, R, and S.

Resource P – Project or resource calendar is active.

Resource Q – Project resource request dates are within the project or resource calendar effective dates.

Resource R – Resource calendar is complex, it does not contain seven days, and it contains more than one pattern and shift.

Resource S – Number of working days within the requested date range is not zero on the project or resource calendar.

Identify the resource for whom Resource Availability Capacity Score will not be calculated. (Choose the best answer.)

- A. P
- B. Q
- C. R

D. S

ANSWER: C

Explanation:

QUESTION NO: 6

Identify three correct statements about the integration of Primavera P6 Enterprise Project Portfolio Management and Oracle Project Portfolio Management Cloud. (Choose three.)

- A.** Event completion flows from Primavera P6 Enterprise Project Portfolio Management to Oracle Project Portfolio Management Cloud.
- B.** Billing events flow from Primavera P6 Enterprise Project Portfolio Management to Oracle Project Portfolio Management Cloud.
- C.** Summarized actual quantity and cost flow from Oracle Project Portfolio Management Cloud to Primavera P6 Enterprise Project Portfolio Management.
- D.** Projects and task definitions flow from Oracle Project Portfolio Management Cloud to Primavera P6 Enterprise Project Portfolio Management.
- E.** Project plans and progress flow from Oracle Project Portfolio Management Cloud to Primavera P6 Enterprise Project Portfolio Management.

ANSWER: A C D

Explanation:

Ref: https://docs.oracle.com/cd/E48434_01/fusionapps.1118/e49622/F1125394AN6D254.htm

Primavera P6 Enterprise Project Portfolio Management and Oracle Fusion Project Portfolio Management: How They Work Together Use Oracle Fusion Project Integration Gateway to integrate Oracle Fusion Project Portfolio Management with Primavera P6 Enterprise Project Portfolio Management. The integration enables project accountants, project billing specialists, and executives to centrally perform project costing, billing, accounting, and executive reporting tasks in Oracle Fusion Project Portfolio Management while enabling each project manager to perform detailed project planning and scheduling in Primavera P6 Enterprise Project Portfolio Management.

Oracle Fusion Project Integration Gateway ensures data security, integrity, and efficiency by defining a set framework in which data is exported from and imported into Oracle Fusion Project Portfolio Management.

The following table and diagram provide an overview of the flow of information.

Information Type From Application To Application

Global integration information

Oracle Fusion Project Portfolio Management Primavera P6 Enterprise Project Portfolio Management Projects and task definition

Oracle Fusion Project Portfolio Management Primavera P6 Enterprise Project Portfolio Management Summarized project actual quantity and cost

Oracle Fusion Project Portfolio Management Primavera P6 Enterprise Project Portfolio Management Project plans and progress

Primavera P6 Enterprise Project Portfolio Management

Oracle Fusion Project Portfolio Management Billing events

Oracle Fusion Project Portfolio Management Primavera P6 Enterprise Project Portfolio Management Event completion

Primavera P6 Enterprise Project Portfolio Management Oracle Fusion Project Portfolio Management

QUESTION NO: 7

Which two privileges are assigned to the Project Plan Management duty in Security Reference Implementation? (Choose two.)

- A. Manage Project Plan Resource Assignment
- B. Transfer Project
- C. View Project Progress
- D. Allocate Project Expense

ANSWER: A C

Explanation:

Ref:

https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/oapjm/index.html#_Toc468200732_1_Topic-Privileges - This table lists privileges granted to duties of the abstract role Project Management Duty.

Granted Role - Project Plan Management

Privilege – only A and C are listed

QUESTION NO: 8

Your customer has implemented Oracle Project Portfolio Management Cloud recently and they have hired new employees for their Professions Services business. These employees are set up in Oracle Human Capital Management Cloud, but the Project Administrators are unable to add them as resources in the Planning Resource Breakdown Structure.

What are three conditions for new employees to show up in the list? (Choose three.)

- A. Current date is before the effective date of the resource, and you did not enable the "Include people with future-dated effective start dates" option during the search.
- B. All new employees created as persons must have an active supervisor.
- C. All new employees created as persons must be assigned to a department.
- D. All new employees created as persons must have an active assignment.
- E. All new employees created as persons must have an active project role.

ANSWER: A C D

Explanation:

Ref:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19b/oapfm/project-foundation-configuration>

Why can't I find persons in the list of resources when I enter team members, planning resources, or person rate schedules?

You can't find persons in the list of resources when you enter team members, planning resources, or person rate schedules in the following situations:

- ❏ The administrator didn't assign a department while creating users. Persons must have an active assignment and be assigned to a department in Oracle Fusion Human Capital Management before they can be added as team members or entered as resources on the planning resource breakdown structure or person rate schedule.
- ❏ The resource isn't active in Oracle Fusion Human Capital Management because the current date is before the effective date of the resource. If you want to include persons who will start in the future, select the Include people with future-dated effective start dates option when you search for the person.
- ❏ Persons assigned as project managers aren't active as of the project start date.
- ❏ The assignment of the person is terminated, and an appropriate value isn't set for the number of days to display people with terminated assignments. You can set the profile value appropriately at the site profile level using the Specify Number of Days to Display People with Terminated Assignments task in the Setup and Maintenance work area.

QUESTION NO: 9

You search for resources to fulfill a project resource request but are unable to proceed after receiving the following error message: "The search for resources cannot be completed because the project resource search index is not available. Contact your help desk."

Identify the cause for this error message. (Choose the best answer.)

- A. The index is not in the process.
- B. The index has been built.
- C. The index is in the process of being updated.

D. The most recent update of the index finished successfully.

ANSWER: C

Explanation:

Ref:

<https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/fapfm/implementing-project-execution->

Topic – Submitting the Process to Maintain Project Resource Search Index: Procedure

Submit the Maintain Project Resource Search Index job set to update the resources that appear on the Search and Evaluate Resources page when a resource manager searches for resources to fulfill project resource requests. The job set consists of a set of processes that facilitate efficient and rapid searches for qualified resources.

Resource managers can't search for resources or view resource details if the search index isn't available for a project resource request with qualifications or keywords. For project resource requests without qualifications and keywords, resource managers can search for and evaluate resources based on resource availability even if the search index isn't current or available.

Caution: The search index isn't available if the Maintain Project Resource Search Index job set process fails, or while the process is running.

QUESTION NO: 10

You configure one OTBI using Project Cross Subject Area Analysis Real Time. You notice that all measures (Budget, Forecast, Cost, Commitments, Revenue, and Invoice) are not available for Bill-To-Customer and Contract and Contract Line dimensions. Identify the reason for this behavior. (Choose the best answer.)

- A.** The Bill-To-Customer dimension applies only to Invoice measures, but the Contract and Contract Line dimensions do not apply to Revenue and Invoice measures.
- B.** The Bill-To-Customer dimension applies only to Revenue and Invoice measures.
- C.** The Contract and Contract Line dimensions apply only to Invoice measures.
- D.** The Bill-To-Customer dimension applies to Invoice measures, and the Contract and Contract Line dimensions apply to Revenue and Invoice measures.
- E.** The Bill-To-Customer dimension does not apply to Invoice measures, but the Contract and Contract Line dimensions apply only to Revenue and Invoice measures.

ANSWER: D

Explanation:

Ref:https://docs.oracle.com/en/cloud/saas/project-portfolio-management/19a/faopm/subjectareas.html#Projects_

Analyze real-time information on project performance, including budgets, forecasts, costs, commitments, revenue, and invoices.

This subject area analysis allows cross subject area analysis between Funding, Invoices, Revenue, Budget, forecasts, Costs areas.
