QUESTION NO: 4

Workspace ONE "Mobile* SSO" requires which of the following components?

- A. Workspace ONE Boxer
- B. Workspace ONE Intelligence
- C. Workspace ONE Assist
- D. Workspace ONE Access

ANSWER: D

QUESTION NO: 5 - (DRAG DROP)

Match the Workspace ONE Access navigation tab on the left to its description on the right by dragging the tab into the correct box.

| Tab | Description |
|------------------------------|--|
| Dashboard | Can be used to monitor user activity and resources used. Displays information about who signed in, which applications are being used, and how often they are being used. |
| Users and Groups | Manage and monitor users and groups imported from your Active Directory or LDAP directory, create local users and groups, and entitle the users and groups to resources. |
| Catalog | Repository for all the resources that you can entitle to users. Add Web applications and manage existing resources. In the Virtual Apps Collection page, you manage Horizon, Citrix, Horizon Cloud, and ThinApp desktops and application integrations. |
| Identity & Access Management | Set up and manage the directory service, authentication methods, access policies, and preferences. Configure Okta and Workspace ONE UEM settings to integrate with Workspace ONE Access. |

ANSWER:

Explanation:
