Topic Break Down

Topic	No. of Questions
Topic 1, Exam Pool A	198
Topic 2, Exam Pool B	201
Topic 3, Exam Pool C	199
Total	598

QUESTION NO: 1

What are the correct items in the following description of the SIP protocol?

- A. The IP protocol uses a distributed architecture
- B. SIP is a protocol developed by IETF for multimedia sessions
- C. SIP is an application layer protocol
- D. SIP is a transport layer protocol

ANSWER: A B C

QUESTION NO: 2

What addresses are typically included in the RRQ message for the GK registration record address when the node is registered? ()

- A. Caller Cs Addr
- B. Poxy Addr
- C. Caller Number
- D. Caller RAS Addr

ANSWER: A C D

QUESTION NO: 3

H.245 The main signaling consists of ().

- A. Capacity Negotiation
- B. The Master-Slave decides
- C. Call request
- D. Open/Close Logical Channel

ANSWER: A B D

QUESTION NO: 4

RAS performs administrative functions, the main content of which includes ().

- A. enroll
- B. Access Control
- C. safe
- D. State

ANSWER: A B D

QUESTION NO: 5

Banners and subtitles are multicast. ()

- A. True
- B. False

ANSWER: B

QUESTION NO: 6

H.323 gateway refers to a node that provides real-time two-way traffic between the H.323 terminal on the SCN and other nodes on the PBN.

- A. True
- B. False

ANSWER: B

QUESTION NO: 7

is a general multimedia communication control protocol, mainly for conference communication design, H.323 system using H.245 protocol as a control protocol, for the establishment, maintenance and release of control channels.

- A. True
- B. False

ANSWER: A

QUESTION NO: 8

Remote audio loopback, from audio input, encoding, transmission through the network to the remote end and then forwarded back, the main test network connection is normal.

- A. True
- B. False

ANSWER: A

QUESTION NO: 9

In the meeting room design, it is recommended to use a light-colored tablecloth to reflect astigmatism to give the participants a good amount of light on their faces (jaws).

- A. True
- B. False

ANSWER: A

QUESTION NO: 10

Common SIP calls the SDP negotiation process includes (). (3 answers).

- A. Invite with SDP, and then 2XX responds with SDP
- B. Invite with SDP, reliable 1XX response with SDP, and final 2XX response without SDP
- C. None with SDP
- D. Invite/Reinvite and Final Response (2XX) both come with SDP's processing

ANSWER: A B D

QUESTION NO: 11

Common SIP calls to the SDP negotiation process include ().

- A. Invite with SDP, then 2xx response with SDP
- B. Invite with SDP, reliable lxx response with SDP, and final 2xx response without SDP
- C. None with SDP
- D. Both Invite/Reinvite and Final Response (2xx) have an SDP response

ANSWER: A B D

QUESTION NO: 12

Which of the following features does the gatekeeper provide (3 answers).

- A. Address Translation
- B. Access Control
- C. Bandwidth Control
- D. Conference Control

ANSWER: A B C

QUESTION NO: 13

During the terminal registration GK phase, the UDP header in the RRQ registration request message contains the following information ().

- A. Caller Number
- B. Caller CS addr
- C. Caller RAS addr
- D. GK RAS addr

ANSWER: C D

QUESTION NO: 14

What are the correct items in the following description of the RTCP protocol?

- A. RTCP is primarily responsible for the real-time transmission of multimedia data streams
- B. RTCP carries a permanent transport layer identifier for an RTP source, which is called the canonical name or CNAME
- C. RTCP port number = RTP port number +1
- D. RTCP provides monitoring of quality of service and delivers informational answers from participants in media sessions

ANSWER: B C D

QUESTION NO: 15

Omnidirectional poetry is suitable for large conference rooms, and pointing pickup is suitable for small conference rooms.

- A. True

B. False

ANSWER: B

QUESTION NO: 16

The SIP protocol is an application-layer protocol.

A. True

B. False

ANSWER: A

QUESTION NO: 17

The MCU encodes each terminal image that needs to be added to the multi-screen combination, and when combined into a road image, it is transmitted to all terminals viewing the multi-screen

A. True

B. False

ANSWER: A

QUESTION NO: 18

Adhoc meetings are instant meetings, users can activate the meeting and join the meeting on the terminal side, and the operation process has video and audio prompts.

A. True

B. False

ANSWER: A

QUESTION NO: 19

Any color at the opposite end of the diameter of the color ring is called a complementary color. ()

A. True

B. False

ANSWER: A

QUESTION NO: 20

The following description of the advantages and disadvantages of forward error correction FEC is correctly ()o

- A.** The latency requirements are high, and the existing network is difficult to use; Only has an effect on small packet loss scenarios; Aggravate image jitter
- B.** It basically does not occupy bandwidth resources and has little impact on image quality
- C.** Increase redundant data, occupy a certain amount of bandwidth, and reduce video efficiency; There is no way for sudden packet loss; Introduce a certain delay
- D.** Through the group combination check, it is possible to recover packet loss data with a certain probability, which is more effective for general packet loss scenarios

ANSWER: C D
