QUESTION NO: 1

Which rule is the most permissive?

A)

Object URI	Principal	Permissions
/maps/**	Authenticated Users	Read

B)

Object URI	Principal	Permissions
/maps/**	SASAdministrators	Read

C)

Object URI	Principal	Permissions
/maps/*	Authenticated Users	Read

D)

Object URI	Principal	Permissions
/maps/regions/*	Authenticated Users	Read

A. Option A

B. Option B

C. Option C

D. Option D

ANSWER: C

QUESTION NO: 2 - (DRAG DROP)

Match the SAS Viya monitoring term with its definition by dragging from left to right.

Term		Definition
RabbitMQ		Manages monitoring and operations activities in a SAS Viya deployment
Operations Infrastructure		Implements an event-driven architecture that underlies several areas of SAS Viya administration
Operations Agent		Enables the information producers to operate independently of the information consumers and serves as an intermediate holding area between data collection and consumption.
Metric		A measurement that describes the performance of a component or a subsystem of SAS Viya

ANSWER:

Term		Definition
RabbitMQ	Operations Infrastructure	Manages monitoring and operations activities in a SAS Viya deployment
Operations Infrastructure	RabbitMQ	Implements an event-driven architecture that underlies several areas of SAS Viya administration
Operations Agent	Metric	Enables the information producers to operate independently of the information consumers and serves as an intermediate holding area between data collection and consumption.
Metric	Operations Agent	A measurement that describes the performance of a component or a subsystem of SAS Viya

QUESTION NO: 3

How can you determine the machine on which your SAS Viya servers and services are deployed? (Choose two.)

- A. Servers page in SAS Environment Manager
- B. /opt/sas/viya/home/sas-admin machines services list
- C. Machines page in SAS Environment Manager
- D. /opt/sas/viya/home/bin/sas-admin healthcheck services instances list

ANSWER: A C

QUESTION NO: 4 - (HOTSPOT)

Within SAS Viva you have a Marketing Folder to which you want a user to be able to save new reports and open/modify/save the reports that already exist within the folder. Which permission(s) will the user need in order to do this?

To answer the question check the box(es) in the and that correspond to the appropriate permissions for each URI.

	Read	Update	Delete	Secure	Add	Remove
Marketing folder object URI	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Marketing folder container URI	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>

ANSWER:

	Read	Update	Delete	Secure	Add	Remove
Marketing folder object URI	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>
Marketing folder container URI	<input type="checkbox"/>	<input type="checkbox"/>	<input type="checkbox"/>	<input checked="" type="checkbox"/>	<input checked="" type="checkbox"/>	<input type="checkbox"/>

QUESTION NO: 5

When managing an existing SAS Viya deployment, which situations describe when you need to obtain a new software order? (Choose two.)

- A. Adding on a new product
- B. Applying a hot fix
- C. Updating TLS certificates
- D. Upgrading to a newer version

ANSWER: C D

QUESTION NO: 6

What configuration file contains the setting for the CAS Cache directory?

- A. vars.yml
- B. site_cache.yml
- C. inventory.ini
- D. site.yml

ANSWER: A

QUESTION NO: 7

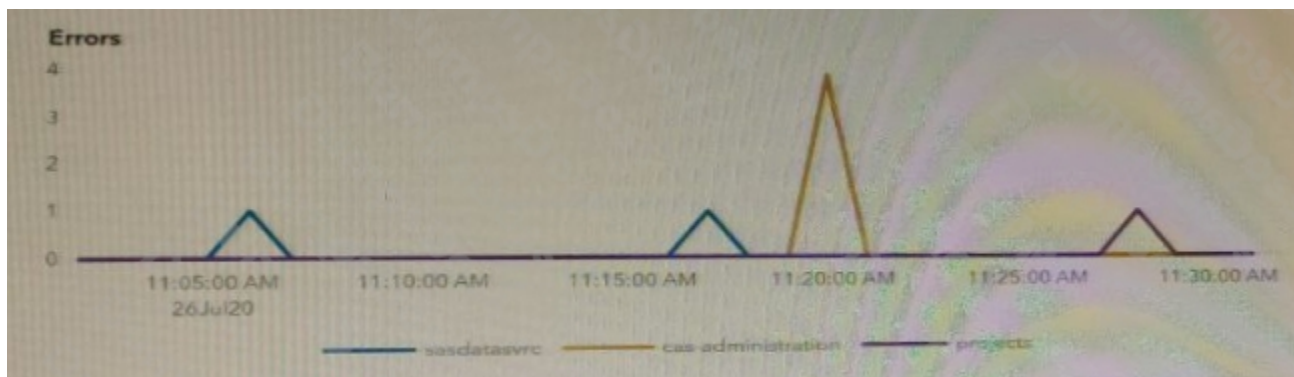

Where would you set or change the shared vault location"?

- A. using CLI: sas-admin backup configuration
- B. using CLI: sas-admin backup update
- C. in SAS Environment Manager Configuration backup-agent configuration
